

Izvajava o poslanstvu Mednarodnega inštituta za fokusing

Prepričani smo, da vsak človek v svojem telesu nosi edinstveno modrost. Naše poslanstvo je podpirati ljudi, skupine in družbo, da dostopajo do te modrosti in živijo iz nje, da bi lahko rasli v pristnosti, ustvarjalnosti, sodelovanju in sočutju in da bi bilo na svetu lahko več miru in složnosti.

V tem oziru je Inštitut za fokusing mednarodna in večkulturna organizacija, ki podpira posameznike in skupine po svetu, ki fokusing uporabljajo ter razvijajo načine njegove uporabe in filozofijo, na kateri je utemeljen.

Inštitut za fokusing prvenstveno poučuje in spodbuja fokusing, raznolikost načinov njegove uporabe in metod poučevanja. Je razvojno, informacijsko središče in kraj priložnosti za srečanja ljudi, ki jih zanima fokusing. Tako in še na druge načine inštitut nadalje razširja in razvija delo svojega ustanovitelja Eugena Gendlina in tistih, ki gradijo na njegovi zapuščini.

The Focusing Institute Mission Statement

We believe that every person has their own unique bodily felt wisdom. It is our mission to support people, groups, and societies in accessing and living from this wisdom so that they can grow into greater authenticity, creativity, cooperation and compassion and so that there can be greater peace and harmony in the world.

In this light, The Focusing Institute is an international, cross-cultural organization dedicated to supporting individuals and groups who are using and developing Focusing, its related applications, and underlying philosophy across the world.

The Focusing Institute is committed to the centrality of teaching and promoting Focusing and encourages a diversity of applications and methods of teaching Focusing to others. It serves as a catalyst for development, an information hub, and a meeting space for interaction opportunities among people interested in Focusing. In these and other ways, it is committed to sharing and advancing the work of its founder, Eugene Gendlin, and those who have built on his legacy.

To poslanstvo pri svojem delu in aktivnostih spoštuje Združenje za fokusing Slovenije.
